High Burden Households

Prevention and Restoration of Home Energy Service Loss

As a Result of Bill Payment Assistance

As a Result of Equipment Repair or Replacement

- In FY 2017, LIHEAP benefits in Illinois **prevented the loss of service 30,361 times**, by stopping threatened utility service disconnections and by delivering fuels to homes that were at risk of running out.
- In FY 2017, LIHEAP benefits **restored home energy service 21,141 times** for households who had been disconnected by their utility provider or who had run out of fuel oil, propane, or wood. In addition, the program **restored home energy service 866 times by repairing or replacing inoperable heating or cooling equipment.**

* High burden recipient households are intended to represent 25% of all recipient households with 12 months of bill data, based on having the highest energy burden. However, Illinois used an alternate approach to identify these households. The attached State Snapshot provides detailed income, energy cost, and burden statistics across all fuel types.
